FORTITUDE GOLD REPORTS THIRD QUARTER 2025 RESULTS

COLORADO SPRINGS – November 4, 2025 - Fortitude Gold Corporation (OTCQB: FTCO) (the "Company") today reported its third quarter 2025 results including \$4.7 million net sales, \$1.6 million in exploration expense, \$0.7 million cash dividends to shareholders, \$2.5 million mine gross profit, and net income of \$0.2 million. The Company confirmed its previously announced preliminary 2025 third quarter production of 1,384 gold ounces. Fortitude Gold is a gold producer, developer, and explorer with operations in Nevada, U.S.A. offering investors exposure to both gold production and dividend yield.

Third Quarter 2025 Financial Results and Highlights

- \$4.7 million net sales
- \$0.2 million net income or \$0.01 per share
- \$11.7 million cash balance at September 30, 2025
- 1,384 gold ounces produced
- \$28.5 million working capital at September 30, 2025
- \$2.5 million mine gross profit
- \$1.6 million exploration expenditures
- \$1,244 total cash cost after by-product credits per gold ounce sold*
- \$1,956 per ounce total all-in sustaining cost*
- \$0.7 million dividends paid
- 619 ounces of gold rounds/bullion at September 30, 2025

^{*} The calculation of our cash cost and all-in sustaining cost per ounce contained in this press release is a non-GAAP financial measure. Please see "Management's Discussion and Analysis and Results of Operations" contained in the Company's recently filed Form 10-K for a complete discussion and reconciliation of the non-GAAP measures.

Fortitude Gold sold 1,376 gold ounces at a total cash cost of \$1,244 per ounce (after by-product credits) and an all-in-sustaining-cost per ounce of \$1,956. Realized gold metal prices during the quarter averaged \$3,444 per ounce⁽¹⁾. During the third quarter, the Company received all approvals from the Bureau of Land Management ("BLM") and the Nevada Division of Environmental Protection ("NDEP") to construct and operate the County Line gold project located 19 miles northeast of its Isabella Pearl Mine.

"We are excited that the BLM and NDEP approved all permits in September 2025 for our County Line Project, which now allows the Company to advance this project into production," stated Fortitude Gold CEO and President, Mr. Jason Reid. "We remain pleased to see this pro-business and pro-mining federal administration work through the historic permit backlog. Mine operations during the third quarter largely focused on removing waste as we advance closer to the deep Isabella Pearl mineralization with the pit layback. Between quarterly production from residual leach coupled with the first Pearl deep mineralization beginning processing in the coming weeks, we target production from both as we advance our County Line Project into near-term production."

⁽¹⁾ The difference between what we report as "metal production" and "metal sold" is attributable to the difference between the quantities of metals contained in the doré we produce versus the portion of those metals actually paid for according to the terms of our sales contracts. Differences can also arise from inventory changes incidental to shipping schedules, or variances in ore grades and recoveries which impact the amount of metals contained in doré produced and sold.
